

第二話

Priestess of Darkness, Veran

*There seems to be a mistake here. In the table of contents, this chapter was called "Priestess of Time, Veran", but it changed here. This one is mostly likely the intended title - the one in the ToC is probably a kanji typo.

Well,
let's go,
Link.

Hm? Oh,
no, of
course
not.

Hey, Auntie
Impa!

Is some-
thing
wrong?

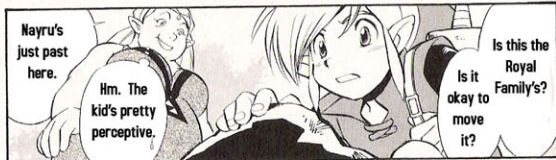

It's not like
Auntie Impa
to space out
like that.

?

I just happen
to know where
Nayru is!

We've come
to the forest
outside of
town.

Does the
Sage of
Time live
in a place
like this?

Forget that and just do it!!

Geez,
what's up
with this?

Hm?

HEAVE!

Here I am,
the weaker of
the two of us...

We can
meet Nayru.

Thanks.

Now
then
...

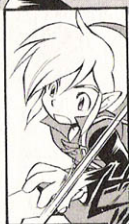

I can hear it...

A song!

Man, this is a pretty deep forest.

Listen very carefully.
Can you hear anything?

This way, Auntie Impa!

Whoa, wait a minute!

Augh!!

Ssh, quiet! We're being surrounded!

What is it?

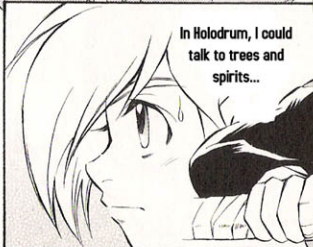

Go away!

Go away!

Go away!

Wh-What's their problem?!

In Holodrum, I could talk to trees and spirits...

I'll give it a try.

...Wait, something's not right.

Link, hurry and fight them off with your sword!

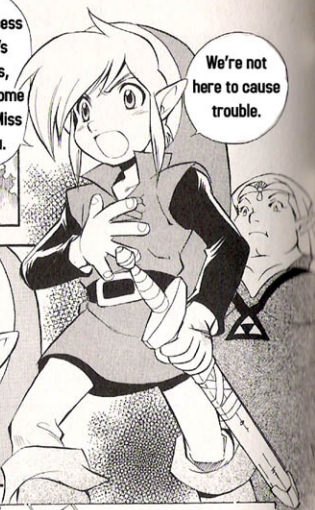

This boy... he can speak to us.

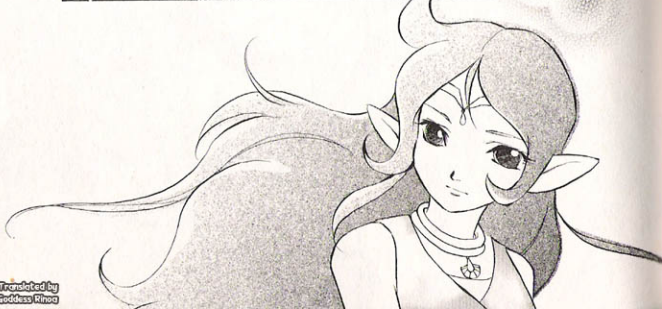

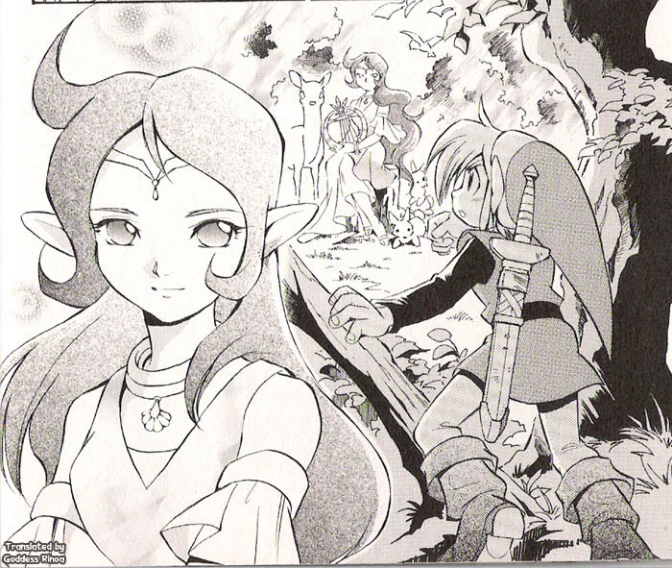

On Princess Zelda's orders, we've come to see Miss Nayru.

We're not here to cause trouble.

A Hylian. One of the few remaining with ancient blood!

ゼルダの伝説 ふしぎの木の実 時空の章

I knew you would come.

Welcome, one who bears the crest on his left hand.

Yes. I am the sage that governs time.

I can look into the past and foresee the future.

You know me?

A-Are you Miss Nayru?

Whoa, she's beautiful!

I can see your future.

You will save people from great evil with your strength and love.

And...

You will become the champion of the Hylians.

An eternal future...

Your name will be a symbol of courage that will encourage people...

Forever more...

No matter how many centuries... How many generations...

Your story will be passed down by generations...

...and inherited by others.

Grandpa always scolded me about it.

I'm kind of a screw-up.

Are you sure you're not talking about my ancestor?

Quite a story. Just like what Grandpa used to say.

That's why I put a barrier up around this forest and hid here. But...

...Yes.

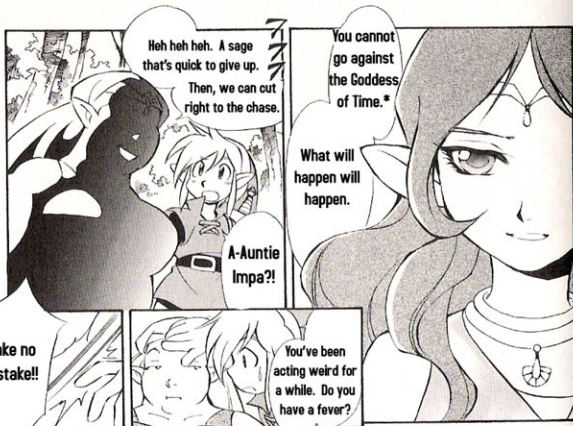

...then you can probably foresee what will happen to you, as well?

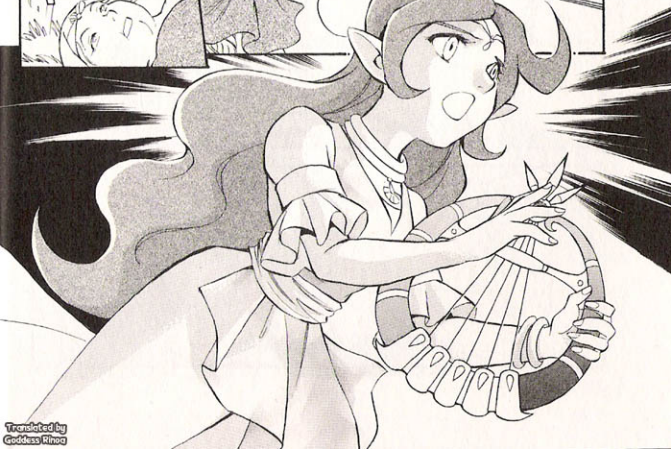

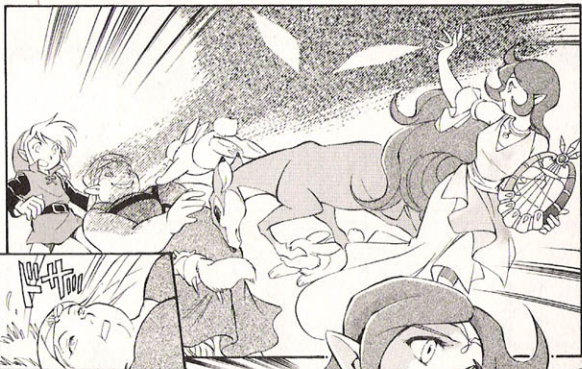

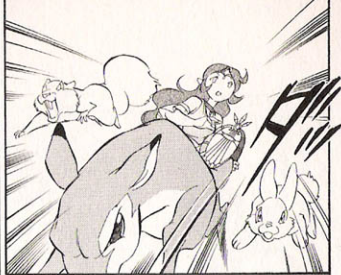

If you can foresee the future...

No, it is about you.

*I had a huge argument with myself about how to translate this one. This is its literal translation, though I think it refers more to our concept of "father time". You may recall seeing this in the Majora's Mask manga.

I, Veran, have obtained the power of the Sage of Time!!

HA
HA
HA
HA
HA

Lucky for me that the hero named by Princess Zelda is such an easy-to-fool moron.

Thanks to you, I was able to break through the barrier!

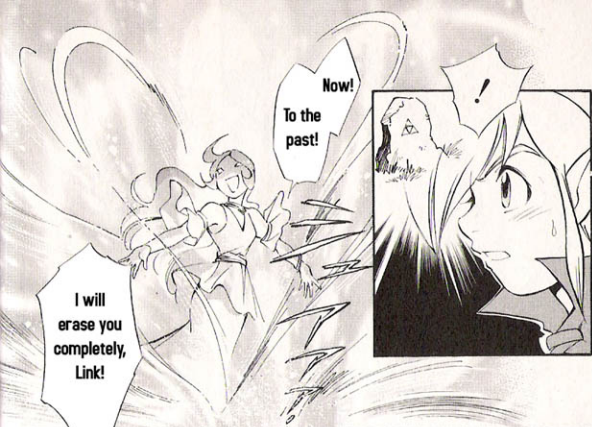

So you finally realized it.

Possession?!

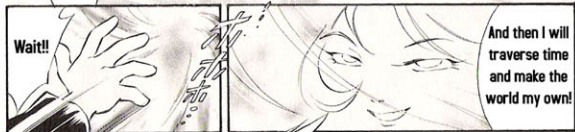

No way... Are you one of Gorgon's allies?!

I will
erase you
completely,
Link!

Now!
To the
past!

Wait!!

And then I will
traverse time
and make the
world my own!

What is
she
intending
to do?!

Erase
me...?!
Taking
over
Nayru's
body...
